JOB VACANCY: MAINTENANCE TECHNICIAN/ MECHANICAL ENGINEER

Our client, a reputable company in the Manufacturing Industry is seeking to recruit a responsible **MECHANICAL ENGINEER/ MAINTENANCE TECHNICIAN** to join the maintenance team. The candidate will support the ongoing operations of Production facility. He will play a key role in ensuring that all machines and equipment run smoothly, safely, and efficiently.

KEY RESPONSIBILITIES:

- Conduct regular inspections and timely repairs to keep machines in safe working condition
- Implement and manage preventive maintenance programs to reduce unexpected breakdowns
- Troubleshoot and resolve mechanical issues on packaging equipment to minimize downtime
- Record and analyze machine downtimes, identify root causes, and recommend cost-effective solutions
- Perform routine servicing and adjustments to maintain optimal machine performance
- Track usage of spare parts and ensure timely restocking to avoid maintenance delays
- Respond promptly to breakdowns and carry out critical repairs
- Diagnose mechanical system faults by interpreting machine functions and symptoms
- Plan preventive maintenance activities, ensuring availability of tools, manpower, and spare parts
- Lead or support engineering projects including equipment installations, upgrades, and process improvements
- Design, develop, and enhance mechanical systems to improve efficiency, safety, and reliability
- Fabricate or modify machine parts as needed
- Adapt equipment or implement modifications to meet production output and quality targets
- Undertake additional responsibilities as assigned to support plant operations and continuous improvement

MINIMUM REQUIREMENTS:

- Degree or Diploma in Mechanical Engineering or a related field
- Minimum 6 months of experience in an engineering or maintenance role
- Proficiency in both oral and written English communication
- Professional certification or registration is an added advantage
- Strict adherence to health and safety regulations, including consistent use of protective gear
- Strong teamwork and communication skills
- Recommendation letter from previous employer or attachment

HOW TO APPLY

Interested and qualified candidates should send their scanned CV and certificates combined into a single PDF document to us through: recruit@consolidatedhrsolutions.co.ke by **Wednesday, 10th September 2025**

Indicating the subject as: **MECHANICAL ENGINEER APPLICATION**
