JOB VACANCY: AUTOMOTIVE ELECTRICIAN **(TRUCKS & SMALL VEHICLES)**

Our client, a reputable company with a large fleet of vehicles, is seeking to recruit an Automotive Electrician to join their team in Thika. In this role, you will be responsible for diagnosing, repairing and maintaining vehicle electrical systems to ensure the safe and efficient operation of the company's fleet.

The ideal candidate must be skilled, proactive and reliable, with strong technical expertise in automotive electrical systems. You will work closely with mechanics, fleet supervisors and management to support smooth operations, minimize downtime, and maintain high safety and performance standards.

KEY RESPONSIBILITIES:

- I. Diagnose and repair electrical and electronic faults in trucks and small vehicles.
- II. Install, maintain, and service vehicle wiring, lighting, ignition, and control systems.
- III. Inspect, test and repair batteries, alternators, starter motors, and related components.
- IV. Carry out preventive maintenance to minimize vehicle breakdowns.
- V. Use diagnostic tools to identify faults and perform timely repairs.
- VI. Ensure all electrical work is performed in line with safety standards.
- VII. Maintain accurate records of repairs, parts, and maintenance activities.
- VIII. Work closely with mechanics and fleet supervisors to resolve complex faults.
- IX. Provide technical advice and support on vehicle electrical issues.

MINIMUM REQUIREMENTS:

- I. Certificate or Diploma in Electrical Engineering.
- II. Minimum 4 years' experience in vehicle electrical repairs (preferably in a company fleet setup).
- III. Strong knowledge of vehicle wiring, diagnostics, and electrical troubleshooting.
- IV. Ability to read and interpret wiring diagrams and technical manuals.
- V. Availability: Immediate.

HOW TO APPLY

Interested and qualified candidates should send their scanned CV's and certificates to us through: jobenquiry@mjengo.com cc. recruit@consolidatedhrsolutions.co.ke
